

SOOOO COMFORTABLE
IS **IDENTIUM**®

PRECISION IMPRESSION

KETTENBACHDENTAL

Simply intelligent

IDENTIUM® – THE UNIQUE MATERIAL COMBINATION!

A new generation of precision impression material

Combines the advantages of two proven impression materials (A-silicone and polyether) – Vinylsiloxanether®.

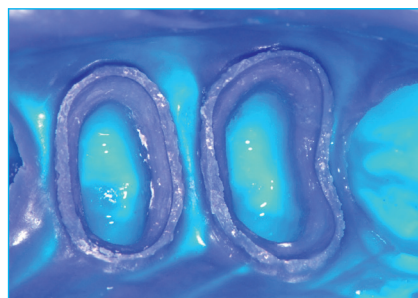

ONE-STEP IMPRESSION

- Monophase impressions
- Double-mix impressions

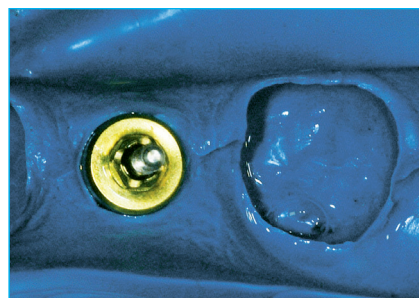

INDICATIONS

- Crowns and bridges
- Implants
- Inlays and onlays
- Combined restorations (fixation impression)
- Pick-up impressions
- Functional impressions

Double-mix impression

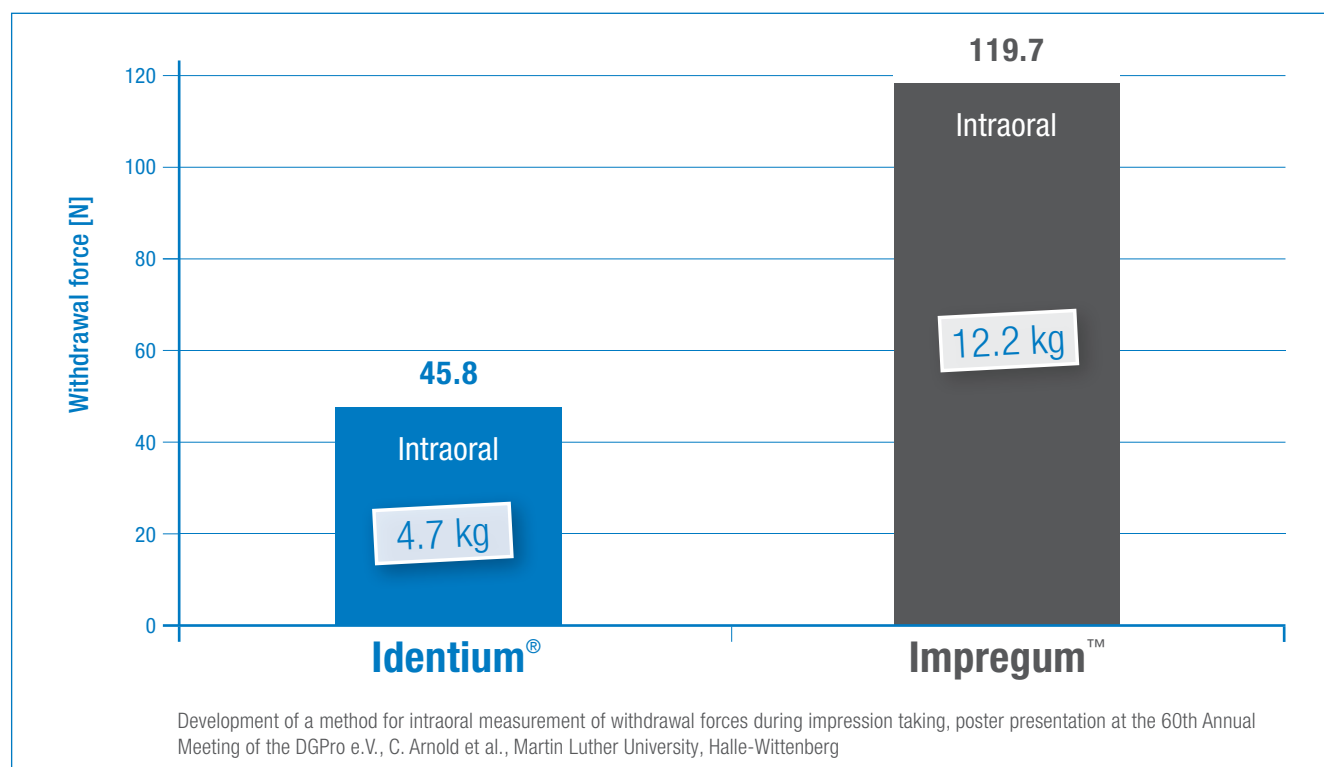

Implant impression

IDENTIUM® – COMFORTABLE IN ALL DIMENSIONS

Removal from the mouth - as light as a feather

Identium® vs. Impregum™: **2.6 times** lower withdrawal forces

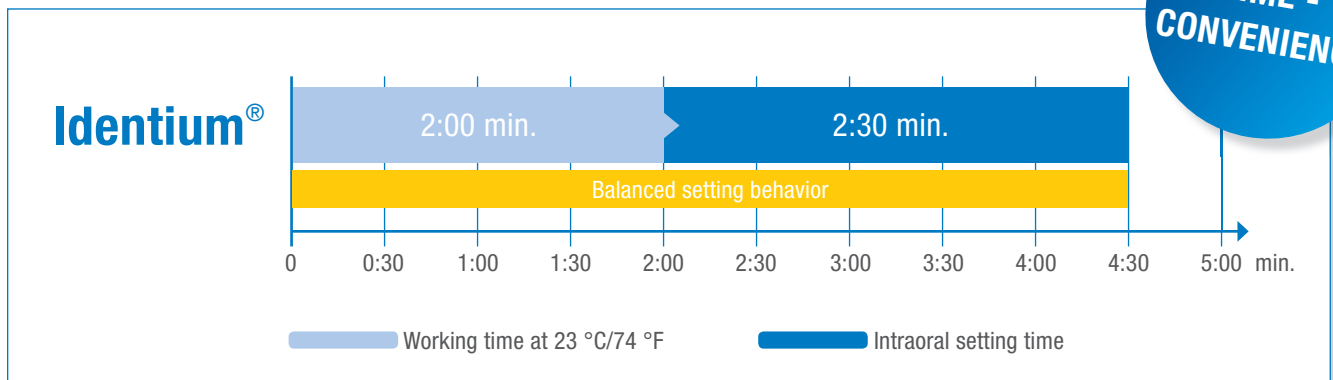

Ease of removal from the patient's mouth avoids distortions and ensures a stress-free impression taking process.
For your precision.

Advantages your patient will appreciate too

Fast final setting time

with sufficient processing time and short intraoral setting time

Sufficient intraoral working time makes it ideal for large cases.
For your precision.

Outstanding flowability

With excellent flowability, you accurately reproduce even the narrowest.
For your precision.

- **Odorless and tasteless material** reduces gag reflex
- **Quick setting and easy removal from the mouth** for a relaxed and pleasant experience
- **Thixotropic flowability** avoids stains on skin and clothing
